I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I am urging you, as a consumer of a compounded prescription, NOT to limit prescriptions that can be shipped out of state by a specialized pharmacy. This is outrageous and will trust that you will do the right thing for patients and consumers of these medications.

I take HRT and am unable to find local pharmacies who will compound the naturally derived hormones that my doctor has prescribed for me. The benefits I derive from this medication are too numerous to list, but suffice it to say, they make a great deal of difference in my overall health and quality of life.
